

Printer and Copier Support

Expert Onsite Laser Printer and Copier Support

Sky Computer Services is your one-stop shop for all of your printer and copier needs. We service all of your equipment on-site, which means less downtime for your business. We will get your Printer(s), Copiers and FAX machines into excellent working condition through on-site diagnostic repairs. We troubleshoot paper jams, paper feed problems, degraded print quality, internal errors, etc. We will keep your imaging equipment in excellent condition by performing preventative maintenances, such as thorough cleaning, inspection of common failure parts, restoration of rubber rollers, etc. Our printing services include work on enterprise models, and the stocking of maintenance and repair parts, particularly for HP products.

We support all HP Laser, Inkjet Printer and FAX models, including Office Jet, Desk Jet Series, Laser Jet, and Design Jet, as well as Xerox Color Laser, Xerox personal Copiers and Xerox FAX machines. We also support Professional Series Canon, Techtronics, Epson, IBM, Dell, Brother, Okidata, QMS, Ricoh, Panasonic, IBM, CANON, Lexmark and more.
